Ordermeals - takeaway ad_02.cdr

... An ordermeals website means your customers can easily find you on the internet

- New customers can find your contact details and a map using search engines that help them find you
 - Many potential customers fail to get a correct number through directory enquiries - the internet is easy to search
 - Your menu can be displayed so that customers can see the range and appearance of your dishes to tempt them to buy
 - You enter your own catalogue to keep costs low - or use our data entry service to do it for you
 - 5 free email addresses with every site
 - email links to your website to potential new customers and they can email your details to friends and family
- and ...***

... An ordermeals website means your customers can buy online

- Payment for meals in advance by PayPal or credit card can be arranged - part of the meal ordering process
- Imagine meetings running late in local companies - they want to order a takeaway and can do it online on computer or typing in mobile phone text without disturbing the meeting - how many more potential customers might you get early evening with this simple system on an ordermeals website?
- If you deliver, no misheard addresses/postcodes - the customer types it in and has already paid

... An restaurant website means your customers can ... Book a table online ... or ... Plan a catering event ... or ... You can promote charity events which customers advertise through your website...
